

Training and Evaluation Outline Report

Task Number: 71-8-5703

Task Title: Develop Airspace Coordinating Measures to Support Planned Operations (Brigade-Corps)

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	FM 3-52	AIRSPACE CONTROL	Yes	Yes
	JP 3-52	JOINT DOCTRINE FOR AIRSPACE CONTROL IN THE COMBAT ZONE	Yes	No

Condition: The command receives a mission order from higher headquarters and the commander issues guidance on developing airspace coordinating measures to support planned operations. The command establishes communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information. Some iterations of this task should be performed in MOPP 4.

Standard: The staff develops airspace coordinating measures to support the commanders' concept of operations. The staff follows commanders intent and standard operating procedures.

Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: None

Notes:

TASK STEPS

1. The staff develops air coordinating measures (ACM) during planning at all echelons to support operations.
2. The staff transmits an airspace control means request to integrate and nominate planned ACMs to higher headquarters as part of a future airspace control order (ACO).
3. The staff consolidates airspace control means request at higher echelons and uses them to form a unit airspace plan (UAP).
4. The staff develops UAPs at lower echelons on a schedule dictated by battle rhythm.
5. The staff integrates the plans at higher echelons until a single Army UAP exists.
6. The staff transmits this last UAP to battlefield coordination detachment for coordination with the airspace control authority and inclusion in the ACO.
 - a. Coordinate across the warfighting functions at each level.
 - b. Coordinate fire support measures and missile defense at each level.

(Asterisks indicates a leader performance step.)

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. The staff developed air coordinating measures (ACM) during planning at all echelons to support operations.			
2. The staff transmitted an airspace control means request to integrate and nominate planned ACMs to higher headquarters as part of a future airspace control order (ACO).			
3. The staff consolidated airspace control means request at higher echelons and uses them to form a unit airspace plan (UAP).			
4. The staff developed UAPs at lower echelons on a schedule dictated by battle rhythm.			
5. The staff integrated the plans at higher echelons until a single Army UAP exists.			
6. The staff transmitted this last UAP to battlefield coordination detachment for coordination with the airspace control authority and inclusion in the ACO.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. .

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination. .
